

DISPA[®]

PRINT IT. HANG IT. RECYCLE IT.

THE DISPLAY BOARD WITH A UNIQUE EMBOSSED PAPER CORE.

3A
COMPOSITES

DISPA®

100% PAPER – 100% RECYCLABLE.

PRODUCT

DISPA® is the new paper board from 3A Composites with a unique structure of embossed formed paper which gives it strength and rigidity. It is the perfect solution for short term promotional campaigns.

DISPA® delivers everything you would expect from a sign and display board – flat, smooth surface, excellent printability, rigidity and stability – and a unique design made of 100% paper.

The internal embossed structure that forms the central layer of DISPA® is the result of extensive analysis and testing of different profiles. This patented core and method of manufacture result in a uniquely stable board and ensure flatness even when conditions are challenging.

DISPA® is a 100% cellulose fibre product and is fully recyclable.

DISPA® – AT A GLANCE

DISPA® sheets offer a unique combination of excellent properties and occupy a 100% ecological position amongst display boards.

- Lightweight – easy to work with and to hang
- Bright white and smooth – graphics look amazing
- Strong, rigid and stable – signs start flat and stay flat
- Made of 100% paper - 100% recyclable – helping you meet your environmental targets
- Laminated structure constructed from embossed formed paper using an innovative, unique and patented manufacturing process
- Balanced reaction to atmospheric changes – the ply construction lets air flow through
- Processing is fast, efficient and easy, even using manual tools
- Standard range of stock sizes – delivering the highest standards of quality and consistency

PROCESSING

Thanks to the ease of processing, working with DISPA® is efficient and fast.

- Print – DISPA® delivers high quality results both for digital and screen printing
- Laminate – DISPA® is ideal for pre-printed double-sided offset litho sheet lamination
- Cut – DISPA® can be guillotined and is suitable for die cutting without special tooling or techniques

PRODUCT APPLICATIONS

Print amazing graphics, create shapes with die and knife cutting, mount onto substrates or laminate onto DISPA® using standard adhesives for maximum in-store impact. A board that will look as good when it is taken down as it did on the day it was hung.

- Perfect solution for short term promotional campaigns
- Hanging signs
- Display and POS/POP applications
- Photo mounting

PRODUCT RANGE	
Thickness mm	3,8
Standard formats (WxL)	
1250 x 1840 mm	■
1250 x 2450 mm	■
1524 x 1016 mm	■
1524 x 3048 mm	■

Tolerances: Thickness ± 0.6 mm. Width and length ± 5 mm. The given measurements are standard dimensions, ex works. Special sheet sizes upon request, cut to size sheets are available from your distributor.

DISPA® will stay looking good for as long as you need it to with the added reassurance that when you dispose of it, it won't be hanging around for long. For your sign and display requirements, there's no better time to make the change to DISPA®.
